

PLM

Where Ideas Become Products

Creating Quality Products in Today's Fast-paced World Isn't Easy

Increase your advantage with a comprehensive product realization platform that controls product development, production, and quality processes anytime and anywhere.

Arena PLM links new product development, quality activities, and change processes to the complete product record. With Arena, your entire team and supply chain partners can collaborate on everything product from design to sustaining activities.

Work Together to Deliver Innovative Products

Executive Stakeholders

- Speed time to value and ensure strategic product goals met with a single source of truth

Quality Control

- Cultivate a proactive quality culture of process automation, evaluation, and improvement
- Expedite internal and external audits

Engineering

- Improve innovation, quality, and design with input from extended product team, product transparency, and product quality control

Operations

- Streamline new product introduction and eliminate production mistakes with access to the product record

Training Manager

- Simplify training record administration, access, and traceability

Supply Chain

- Bring partners into your processes and take action to improve quality and reduce risks

Customer Service

- Accelerate complaint processes for improved customer satisfaction

Purchasing

- Factor COGS data into product team design decisions for accurate price negotiations and faster fulfillment, and obtain better component pricing from suppliers with aggregate component demand

IT

- Eliminate upgrade, disaster recovery, and backup activities

• STREAMLINE DEVELOPMENT

One Secure Place

Unify your entire product definition for a complete digitized product record—visibility and traceability with no silos, gaps, or surprises.

✔ Confident Design Control

• ADVANCE QUALITY

Connected and Transparent

Accelerate engineering change and quality processes by connecting all product teams to the right information for continuous improvement.

✔ Full Team Collaboration

• DRIVE INNOVATION

Strategic

Disrupt your market, exceed your quality goals, and surpass your cost goals. Mature your business with supply chain collaboration, process optimization, NPI management, compliance, and enterprise integrations.

✔ Market Advantage

Arena PLM Benefits

✔ Start Right, Start Early to Be Faster

“Leveraging Cloud PLM to manage product data from conception can give you the competitive edge when racing to be first to market. You have to be faster than the competition to beat them.”

– Ranjan, VP Operations, SunLink

✔ Succeed at New Product Introduction

Beat the odds with your NPI efforts? Yes, you can, [according to our customers](#).

✔ Set Your Team Up to Scale with Success

Customers report [10x efficiencies and confidence](#) in meeting product requirements. You can benefit at any size from start-up to enterprise.

PLM

Where Ideas Become Products

Trust Us with Your Business Today and Tomorrow

No matter the size of your team, complexity of your products, or stage of your company, you need solutions you will never outgrow.

Arena is with you every step in the product journey. With included enterprise cloud functionality, Arena is available anywhere, anytime for your entire team.

Transparency

Embrace Visibility

Visibility directly correlates to revenue. Your teams need unprecedented transparency and access to everything product throughout the entire product lifecycle. Arena gives your teams secure, appropriate-level access coupled with critical audit history tracking.

Collaboration

Be Hive Minded

Everyone has a role to play in the product realization process. Arena provides multiple avenues for formal and informal collaboration, all secure, all auditable. Ensure standard workflows and controlled processes when you need them. And get lighter, fast team chat and sharing for the rapid iterations when less is more. Should everyone in your supply chain use Arena? [Read about one customer who says yes.](#)

Business Insights

Better Business Decisions

To push for excellence, top-performing companies rely on advanced reporting and analytics to uncover gaps and opportunities in product processes. Discover [how our customers use Arena's product analytics](#) to speed up quality processes and achieve product delivery goals.

Security

A Layered Defense to Protect You

Arena is architected to address every layer of security to protect our customers' product and quality information. We have a risk-based approach and utilize industry-standard protocols and mechanisms throughout our solution, from the physical layer to policies and the application layer. We will gladly share more details with you as you need. Let us know.

Information Sharing and Integrations

Extend the Value

All valuable information is or will soon be digital. It is important that data can flow between Arena and other related systems to increase your process efficiency and ensure data accuracy. [Explore](#) our enterprise integrations and tools available to connect Arena to the rest of your digital environment. CAD, ERP, CRM, MES, and more—we've got you connected.

Securely Extend to Your Supply Chain Team

Your product processes involve multiple teams, locations, partners, suppliers, and vendors. These dispersed teams must comply with the latest regulations and standards. They need to work from the same design, stay on budget, and respond to customer demands. Ensure processes are followed and everyone is collaborating.

WORLDWIDE

62%

of customers and their supply chain partners use Arena from outside the United States every day

INDUSTRY STANDARD

92%

of top EMS providers in the industry access Arena customer systems for product collaboration

BEST IN CLASS

50%

of Arena customers include supply chain partners fully in design and change processes for market advantage

PLM

Where Ideas Become Products

Streamline Product Development

Arena helps today's product companies accelerate new product introduction and continuous product improvement. Arena PLM is a complete product realization platform to accelerate your innovation efforts and deliver superior products fast.

Product Record Control

Begin with a single, unified version of the complete product record for visibility and traceability. All product data includes items, BOMs, AML, SOPs, packaging, and documentation.

Issue Management

Provide streamlined end-to-end defect and issue management for software, hardware, electrical, and firmware against requirements, quality process actions, product record, and project efforts.

Document

Manage all your product information through engineering change approval processes, document management, and compliance management with your extended product supply chain.

Project

Ensure project execution, avoid missteps, and track accountability with collaborative project management. Manage projects with easy-to-use scheduling and task assignment, all linked to the product record, quality process, changes, and requirements.

Change

Improve product development by leveraging your extended product team's expertise in the review and approval processes. Your extended product team? Everyone from engineering to purchasing, manufacturing, and your external supply chain.

Supplier Quality

Securely bring your supply chain partners into collaborative product and quality processes for accountability and early and often communication throughout product development and sustaining processes.

Quality

Speed time to market and product accuracy with controlled quality management processes. Define and execute product quality business processes to better meet environmental requirements (e.g., RoHS, Conflict Minerals) and regulatory standards (e.g., FDA, ISO, UL, EN).

Regulatory & Compliance

Reduce product sourcing and compliance risks with transparency across the product record, access to electronic component market availability, and visibility of compliance information.

Requirements

Give the entire development team a way to manage requirements to lower costs and continuously innovate throughout the product lifecycle for traceability and impact analysis.

Training

Manage product and corporate training to ensure corporate, quality, and regulatory compliance. Increase effectiveness of training programs across the company and streamline the training process.

Your Product Realization Platform for Today and Tomorrow

Arena offers the most comprehensive product development platform to help you innovate rapidly. We improve, accelerate, and track your product processes across multiple teams, locations, and partners. We help your teams collaborate through the entire product lifecycle, stay on budget, and respond effectively to customer demands. All of this helps you bring better products to market, faster and easier, so you can change the world.
