

QMS IS A CRITICAL ADVANTAGE FOR REGULATED PRODUCT COMPANIES

Bring high-quality, life-saving products to market faster when you advance quality and drive innovation across the total product lifecycle.

Arena QMS links quality issues and change processes to the active product record, structured in a bill of materials (BOM). With Arena, your entire product team can collaborate throughout the development and quality process to deliver products to a regulated market.

ENSURE COMPLIANCE

One Secure Place

Unify quality and product—all product definitions with engineering changes and quality processes for a complete DMR—controlled access and traceability with no surprises.

CONFIDENT
DESIGN
CONTROL

ADVANCE QUALITY

Connected and Transparent

Manage quality processes across all products with all teams using a single product-centric QMS system—people and information connected to build continuous improvement.

FULL TEAM
COLLAB-
ORATION

DRIVE INNOVATION

Strategic

Leverage your product-centric QMS to enable collaboration, closed-loop CAPA management, training management, business intelligence, and integrations to meet your quality, market, and cost goals.

BUSINESS
SUCCESS

ARENA QMS BENEFITS

✔ End Inspections Early

“Thank you for creating a solution that really works as promised!”
– Veteran 15-year production medical device class 2 company

✔ Achieve Your Training Compliance Goals

Almost 100% training compliance? Yes, it is possible, [according to our customers](#).

✔ Scale and Grow With Success

Customers report [10x efficiencies and confidence](#) in meeting regulatory product requirements. You can benefit at any size from startup to enterprise.

UNIFIED PRODUCT AND QUALITY PROCESSES

Executive Stakeholders

- Speed time to value and ensure strategic product goals are met with a single source of truth

Quality Control

- Cultivate a proactive quality culture of process automation, evaluation, and improvement

Engineering

- Improve innovation, quality, and design with input from extended product team, product transparency, and product quality control

Operations

- Streamline new product introduction and eliminate production mistakes with access to the product record
- Reduce cost and improve quality by reporting production problems

Training Manager

- Simplify training record administration, access, and traceability

Supply Chain

- Gain insights and take actions to improve quality and reduce risks
- Bring partners into product realization processes

Customer Service

- Accelerate complaint processes for improved customer satisfaction

Purchasing

- Factor COGS data into product team design decisions for accurate price negotiations and faster fulfillment

IT

- Eliminate upgrade, disaster recovery, and backup activities

ENSURE COMPLIANCE AND EXCEED PRODUCT QUALITY GOALS

Key Benefits	What Product-Centric Quality Management Does	Quality System Requirement	
		FDA	ISO
<ul style="list-style-type: none"> ✔ Compliant Device Master Record 	<ul style="list-style-type: none"> • Controls entire product record, all components, approved manufacturer lists, user documentation, labeling and packaging specifications, manufacturing and test instructions 	Design and Document Controls	Medical Device File
<ul style="list-style-type: none"> ✔ Reduced Design History File Administration 	<ul style="list-style-type: none"> • Manages changes to design plans and documentation • Contains necessary records to demonstrate compliance with FDA Design Controls regulations 	Design and Document Controls	Control of Design and Development Changes
<ul style="list-style-type: none"> ✔ Collaborative Quality Processes 	<ul style="list-style-type: none"> • Provides complaint, CAPA, and ECO processes compliant with corporate, ISO (9001, 13485), OSHA, SOX, FDA (21 CFR 820), and other regulations 	Corrective and Preventive Action, Nonconforming Product	Quality Processes
<ul style="list-style-type: none"> ✔ Employee Competence and Awareness 	<ul style="list-style-type: none"> • Notifies employees for scheduled retraining events and training triggered by a document release • Automatically creates new training assignments when a new document revision is released to streamline training processes regulations 	Personnel	Human Resources
<ul style="list-style-type: none"> ✔ Audit Confidence 	<ul style="list-style-type: none"> • Collects compliance evidence with time-stamped audit trails and electronic signatures on product and quality processes • Provides searches and logically connected product and process information 	Audit Support, 21 CFR Part 11	Audit Support
<ul style="list-style-type: none"> ✔ Streamlined Supplier Quality Management 	<ul style="list-style-type: none"> • Manages supplier standards, evaluations, and agreements and quality processes for purchased parts and suppliers 	Purchasing Controls	Purchasing Process
<ul style="list-style-type: none"> ✔ Secure Product and Process Data 	<ul style="list-style-type: none"> • Ensures access is granted only to those with proper security access control 	N/A	Control of Records
<ul style="list-style-type: none"> ✔ Accelerated System Validation 	<ul style="list-style-type: none"> • Arena performs installation and performance validation prior to each release 	Production and Process Controls (Automated Processes)	Validation of Processes for Production
<ul style="list-style-type: none"> ✔ Traceability in Issue Handling 	<ul style="list-style-type: none"> • Tracks issues against requirements, quality process actions, product record components, and project efforts 	Nonconforming Product	Product Realization
<ul style="list-style-type: none"> ✔ Verify and Validate Design Requirements 	<ul style="list-style-type: none"> • Provides connected and visible requirements management throughout product lifecycle 	Design and Document Controls	Product Realization

GO BEYOND COMPLIANCE TO GREAT PRODUCTS

Arena offers the most comprehensive product-centric QMS to help you innovate rapidly. We improve, accelerate, and track your product processes across multiple teams, locations, and partners using compliant processes. We help your teams collaborate through the entire product lifecycle, stay on budget, and respond effectively to customer demands. All of this helps you bring better regulated products to market, faster and easier, so you can change the world.
